NORWAY AND VICINITY.

The Maine Tel. and Tel. crew, who have been in town for the past six weeks, finished work Monday and moved to Clinton. Foreman Wood and Mrs. Wood spent the day Monday in Lewiston.

Cecil N. Maxin, one of our Norway boys who had a fine position in Detroit, has enlisted in the navy and is at Paris Island, South Carolina. He expects to sail for France in a few weeks.
Howard L. Chick of Bowdoin visited his parents, Mr. and Mrs. Charles W. Chick, over the week end and attended the Hospital Corps drill Saturday. He will continue at college until summoned into active service.

Lawrence Record has returned from Lewiston and has found employment with the Norway Water Co. New service pipes are being relaid on Main street before the cement road is in place.

Company D of Norway and South Paris are stationed in an old vacant hotel at Saco. They have electric lights, steam heat, hot and cold water, a bath room and many other conveniences, and it's understood Saco regards Company D as an honor to the local community. Sergeant Eugene P. Lowell of South Paris has been appointed, one among others to attend the officers' training school for a commission in the regular army.

Arthur R. Walker is making plans for a larger garden and will plough up every bit of land about his home on Water street. Potatoes, corn, beans and cabbage do well in that soil so these will be featured. Flowers are not food but they are not to be forgotten during the rush, and the usual attractive beds may be in evidence at the proper time.

Joel Allard of West Lovell was at B. P. Proctor's, Monday.

Mrs. Julia Abbott of West Paris is visiting her brother, Charles H. Adams, for several days.
The Hospital Corps has been recruited to full strength. Sergeant J. V. Hunting and Priv. Jameson L. Finney have been relieved from duty until called and the headquarters closed.

Dr. L. Hall Trufant has bought a parcel of land situated on Pleasant street of William F. Jones. A large part will be planted with staple vegetables.

Arthur and Lewis Buswell are to cultivate four acres on the home place, raising potatoes, beans, and yellow corn. Potatoes and peas were planted Monday. A large straw barn has been built for the summer food, while a large flock of hens and several pigs are expected to help out when green stuff has passed away.

Mrs. A. E. K. Grover returned Friday from a trip to West Bethel and vicinity, calling on friends and relatives.

Lake Temple Pythian Sisters will hold a sociable in the K. of P. hall on the evening of May 15 at 8 o'clock. Dancing and cards will be in order, it being a Victoria benefit.

Carl Ludvik has returned to Cumberland Mills after making a brief visit at his home, Osgood Noyes'. He has enlisted in National Guard 12, Company M, Coast Artillery Corps.

Mrs. M. A. Mills and two children, Robert and Dorothy, are visiting at A. O. Noyes'.

Mothers' Day will be observed at the Methodist Church next Sunday. At 10.30 the pastor, Rev. H. L. Nichols, will preach a sermon appropriate to the occasion. In the evening at 7 o'clock Mrs. Nichols will give an interpretation of the charming little story "Laddie" written by an unknown author of compelling power. Graphically and pathetically, the story of the simple country mother and the proud city doctor, her prosperous son, is told with great ability. Musical selections by the choir will intersperse the reading. All are invited. Wear the carnation, the beautiful symbol of the Mother, whose memory the day commemorates.

All schools will close Thursday afternoon until Monday, owing to the teachers' convention at Rumford, Friday.

T. P. Richardson has leased a good sized plot in Mrs. Ella Jewett Cole's field and will grow winter vegetables. The piece has been broken and worked over, ready for early planting.
Clarence Briggs is cutting up the tops left from clearing timber from the Crockett lot above Norway Lake. Considerable cord wood will be reclaimed from the large tract.

The Charles G. Blake field, corner Pearl and Whitman streets, has been ploughed for food purposes. Vegetables and not hay for village lots, is the slogan these times.

Nearly a hundred Odd Fellows from the two villages were guests of the West Paris lodge Friday evening. Work and supper and a social time was thoroughly enjoyed.

Knox Bickford is breaking into the farming ranks. A good sized garden will be planted with potatoes and beans of known value. Behind the lapidary he and Bob are raising eggs from a flock of reds and barred rocks. They are experiencing trouble because members of the hen family persist in committing suicide by drowning in the bog.

NUMBER 19.

PUBLIC SAFETY MEASURES

Note—Extravagance is never to be encouraged, but drab retrenchment along all lines would do vastly more harm than good at this time.

Public Safety Committee
The Agricultural Committee have secured several hundred bushels of seed potatoes which will be on sale at C. B. Cummings & Sons' So's. grain mill, Thursday and Friday of next week at approximately \$3.50 per bushel. They are to be sold through the efforts of E. S. Cummings and L. M. Carroll that the potatoes be secured. Those desiring these potatoes will apply to the Agricultural committee or at the mill.

This week the Committee is able to report considerable progress in the right direction. The needs of the farmers having been ascertained to some extent, and the scarcity of seed potatoes being evident, Ed. Cummings came forward with a public spirit volunteer to buy a carload of his own responsibility and to sell them for seed at \$3.50 per bushel. His offer was at once accepted, and the potatoes are expected in Norway not later than next Monday.

Those who want seed potatoes now know what to do and where to apply. The price is \$3.50 per bushel, which barely covers the price paid for the seed and the cost of getting them here. Mr. Cummings has added no margin whatever for profit, and in fact stands ready to shoulder a very probable loss. Bags will be charged, but are returnable.

There is no excuse for further talk about lack of seed potatoes. Nor is there any doubt as to the quality of the seed now available. These potatoes are a good three weeks earlier than the Green Mountains, and as a matter of fact the seed of which these are the product was planted in Freeport last year on June 25th.

Price \$3.50 per bushel. First come, first served. No favorites. Bags extra. Apply at the C. B. Cummings grain mill.

Next as to labor. The supply of skilled labor for farm work is practically nil; but in answer to the farmers' request for help, and in response to the farmers' patriotic determination to be self sufficient in more seed than last year in spite of everything, the town of Norway has responded with the best it has to offer. It is no longer true that no help is available.

If the unskilled citizens of Norway and vicinity are willing to forego their ease and recreation in order to do their bit, it is up to the farmers to make the best of what the volunteers have to offer—especially as nobody is going to ask a farmer to pay more than a dollar for a dollar's worth.

Autos have been made available free of charge. The available citizens have volunteered, and have been card indexed. If farmers will now give two days' notice over the phone, saying just what they want help, and just what work there is to do, the Committee of Public Safety promises to deliver a gang of willing workers (men, women, or boys at the Committee's discretion) early in the morning for help, and to collect them the same evening. Payment by results.

That is to say, the work will be worth about so much per acre, and the price will be agreed on between the farmer and the Committee. When the work is finished to the farmer's satisfaction he will be asked to pay the total agreed on, and the sum will be divided among the workers by the Committee's representative. If any farmer knows of any arrangement fairer than that he is invited to make his knowledge known.

Nobody is trying to get rich out of this. On the contrary, a good many people stand to lose both money and ease; but they are willing to lose a little and work hard for reasons of patriotism. The farmers are invited to respond by accepting the best Norway has to offer and making the best use of it.
There are several ladies on the list who have volunteered for housework, so as to give the farmer's wife a chance to help with the farm work. This practical offer most surely ought to get results.

COMMUNITY CHAUTAUQUA

Carl H. Turner, assistant manager of the Community Chautauqua course, was in town Wednesday and met those who signed the contract at E. N. Sweet's store at 1.30. The object of the meeting was to talk over the coming Chautauqua and to get the committees into working order so to make this year's course a big success.

The opening feature of the course will be the Junior Chautauqua the night preceding the regular five days' program when a community play festival will be held. Those plans will be under the direction of a playground expert from Columbia University in New York City, and will include many novel and interesting features in which boys and girls of the entire community will participate. The program is an unusually strong one and the first day, the theme will be Patriotism and will be governor's day. The principal speaker for the evening will be Ex-governor A. C. Shallenberger. He is said to be an orator of tremendous power and has appeared at nearly 1000 Chautauquas in the past ten years and has been booked all over the country. His subject is to be "Political Patriotism" and will discuss in a nonpartisan way one of the world problems that are facing us as a nation.

The Kaffir Singing Boys
The Kaffir Singing Boys and Mr. Balmer made their first appearance in this country several years ago, appearing at Chautauqua with Theodore Roosevelt and shared honors with him on that great program. They were brought over here from Africa through the influence of Bishop John H. Vincent. Mr. Balmer is an Englishman who went into Africa many years ago as a mining engineer. He had studied music in London and soon became interested in training the voices of little African boys among the most savage African tribes. His first singing band was organized twenty-five years ago. They sang before Cecil Rhodes, later before Queen Victoria in London, made a six weeks' concert stand in London and in Liverpool, toured England and later came to this country. New boys have been added from time to time. The oldest of his boys has been more than twenty years old.

The Mendelssohn Sextette is one of the famous Louis Rimmer's companies which have had a decided success over many of the Chautauqua circuits. It is a singing orchestra, beautifully costumed and their music is of a white variety. The Tschakowsky quartet have had a wonderful success as a Chautauqua company, playing music that appeals not only to the music lovers and the musical critics, but music of a semi-popular character that will appeal to every one who cares anything about music.

John Kendrick Bangs is so well known to every reader of American Literature, his "Hobnob on the Skys" has a permanent place in American literature, and others of his short stories will be read for many years to come. His subject will be "Salubrity."

Another feature is Dr. E. L. Williams, known country over as "Chico's Fighting Person." Dr. Williams has won fame as a reformer in the loop district in Chicago. His work has been indorsement and he has had the cooperation and backing of the ministers and men of all churches in cleaning up the loop district in Chicago. He is a member of the Chicago police force, has led in vice crusades with the assistance of the better element in the police force and has done much toward cleaning up that element and the police have been fostered in crime and lawlessness. He was over one of the western circuits of the Community Chautauquas last season, and has a message of vital interest and importance to the thousands of fathers and mothers who will hear him this summer.

The season tickets will go on sale a month in advance of the Chautauqua, and every one is urged to get their tickets early and give the affair the big boost it deserves.

The musical portion of the program will be an acting patriotic lines. The Chautauqua management have arranged to admit free veterans of the Civil and Spanish American Wars, who come in uniform, also the boy scouts, in uniform providing the latter are in command of a scout master. A special section of seats will be reserved for these guests.

Business Men's Day
James S. Knox of Cleveland will speak on the subject of "Community Efficiency." He is one of the leading lecturers before business men's organizations in the country. He has been the largest gathering of business men from coast to coast and has written books on salesmanship and advertising that have been sold and read the world over. These books were used as textbooks in the schools for business training in France before the opening of the war and are now used in the larger schools of business in this country, Canada, Japan and other countries.

Other Big Features
Music will play a prominent part in this five days' program and the musical features comprise in almost a complete Chautauqua in themselves. The headline attraction is, of course, the band. This organization is one of the most spectacular bands known to the Chautauquas. They wear the royal blue hussar uniform with plumed hats, shoulder capes and leather boots.

Other notable features in music are the Kaffir Singing Boys, the Mendelssohn Sextette, the Boston Musical Entertainers and the Tschakowsky Quartet.

SOUTH PARIS

South Paris Grange

The Annual meeting of Paris Grange Building Corps was held Saturday, May 5 and the following officers were elected:

Pres.—F. S. Dudley.
Treas.—A. L. Abbott.
Clerk—Chas. Edwards.
Directors—F. S. Dudley, A. L. Abbott, L. A. Brooks, A. P. Stearns, A. F. Goldsmith.

It was voted to change the date of the Annual Meeting so as to meet on the first Saturday of January at 10.30 A. M.

Notice of the sudden death of Bro. Carl Kimball was given and arrangements were made to attend the funeral in a body Sunday.

The next regular meeting of the Grange will be held in the evening, May 19 at 8 P. M.

League For Woman's Service
The organization recently formed in South Paris to aid in Red Cross work has become formally a branch of the National League for Woman's Service.

There are various lines of activity of the League, but one of the most important, and the one on which this branch is at present extending its energy, is the Red Cross work thought not affiliated with that organization.
Thursday afternoon the rooms in Maxwell Block on Pine Street were open for work for the first time, and in the course of the afternoon about fifty women were present for a longer or shorter time.

It has been decided to have the rooms open on Monday, Wednesday and Friday afternoons for work.

Crockett-Hardy
Abel Wright Crockett of Sumner and Mrs. Cora E. Hardy of Paris were married at the home of the officiating clergyman, Rev. R. P. Johnson of Auburn, Saturday evening, May 5. The single ring service was used, and the couple were unattended. After a short visit in Lewiston and Auburn they will reside in Sumner.

Seneca Club Entertainment
The entertainment given Wednesday evening under the management of the ladies of the Seneca Club for the benefit of the Red Cross was a success in every way. The program opened with a beautiful tableaux "The Goddess of Liberty" Mrs. S. M. Wheeler as the Goddess! The audience rising and all singing together the Star Spangled Banner, after which the Gipsy drill by nine young ladies beautifully costumed and looking very bit of a wild bewitching gipsy girl. Each did her part in a creditable manner.

The costumes for this drill were designed by Mrs. H. E. Wilson and made by the club. It showed very careful drilling and patience on the part of Mrs. Wilson, who had it in charge. Marion Gray was accompanist and did her part in a very acceptable manner.

The evening's entertainment closed with the two act drama "Mr. Bob" which was very pleasing, this being in charge of Mrs. Harriet Barnes. The entertainment will be repeated Thursday evening, May 10th. Shaw's orchestra unites music for both evenings. There will be a good sum realized for the Red Cross fund.

One of the best games of Leavitt's history was played on their home diamond Saturday, when Parsons' twirling and Ricker's clever work on first prevented South Paris from scoring. The score was 1 to 0 in favor of Leavitt.

Almore Haskell of Harrison to Lena H. Stone of same, has transferred land in the town of Harrison.

Mrs. Cora Briggs and Mrs. Kate Linder started Monday morning for Boston, where they will probably stay two or three weeks. Ida Briggs will play the organ at the Congregational church during Mrs. Briggs' absence.

About fifty members of Mt. Mica Lodge of Odd Fellows and nearly as many from Norway Lodge, were the guests of West Paris Lodge at a special meeting held at that place Friday evening. The trip was made by auto and although the mud was a little too deep for comfort, the pleasure was worth nothing but what the cars could get through without much difficulty. Mt. Mica Lodge conferred the second degree on two candidates and Norway then conferred the third degree on six candidates. The work of both teams was highly creditable. An excellent supper was enjoyed.

Mrs. J. P. Currier of this town and Mrs. Joseph Currier of Milan, N. H. were in Portland on business, Friday.

No fireworks will be set off in South Paris this year as the selectmen have decided to grant no permits.

The children that belong to the Junior Christian Endeavor of the Congregational church are each earning five cents to contribute to the Red Cross Society. One of the Sunday school classes in the Universalist church has already contributed.

The schools will be closed Friday on account of the teachers attending the meeting of the Oxford County Teachers' Association which is to be held at Rumford. Edmund John Carver of Paris High School speaks the topic, "Three Phases of the Reformation."

Rumford is turning out United States citizens at the Supreme Judicial court. More than twenty-five were naturalized Tuesday.

A rock party will be held in K. of P. Hall, Thursday evening, May 17, for the benefit of the Red Cross work.

you'll
have one

Glenwoods are Brim Full of Good Things

The Glenwood Balanced Baking Damper is far ahead of any other—it is as positive as the turning of a railroad switch—open to start the fire, closed to bake—just this one damper for kindling or baking and best of all, it can't warp or stick.

The Revolving Coal Grate is easy to shake at all times, and simply fine for removing clinkers. It is triangular in shape, with three different sides for wear.

The Glenwood Shelf Under Oven Door is not stationary—it automatically raises and lowers as oven door is opened or closed. It is always level with oven bottom—a great convenience when basting meats or removing food.

Glenwood Iron is smooth and perfect—the easiest of any to clean—a real delight to the most exacting housekeeper. Get one and you'll be glad ever after.

WATERFORD

At a Red Cross rally at the vestry on the afternoon of May 2, an auxiliary with fifteen members was formed. The following officers were chosen: chairman, Mrs. W. M. Morse; secretary, Mary Morse; Treasurer, G. W. Sias. More members will be added in the near future.

The Missionary Society meets this week, Tuesday, with Miss Wilkins. Next Sunday is Mothers' Day. You should wear a flower and go to church for mother's sake. A sermon appropriate to the day will be delivered.

Rev. G. W. Sias was in Portland Tuesday to Thursday of last week in attendance upon the Grand Lodge of Masons. Raymond Millett of Sherman visited relatives in town last week.

Ed. Coly purchased a cow of Skinner Brothers this week.

SOUTH WATERFORD

Another light snow storm Sunday morning, which left no sign an hour afterward.

Perley Howard of North Bridgton was a welcome visiting and dinner guest of his uncle, aunt and cousins of Oak Lodge Sunday last.

Bear Pond was clear of ice on Saturday, April 28, and the water is very high. Nothing yet.

Lillian Kimball is teaching this year in Albany.

Never before was there such an avalanche of matter for publication in newspapers for the public good poured into newspaper offices as today. It comes by the bushel for every conceivable cause. And most of them are good causes, too. The army and navy maintain publicity departments and send several pages a week. The various committees, state and national, on food problems, war necessities of different sorts, etc., all furnish not their mites but their carloads. The regular government departments of forestry, farming and the like are even busier than usual. And then there are the prohibitionists, the liquor interests, the woman suffragists, the initiative and referendum advocates and one thousand and one other devotees of this cause or that. Altogether, it would seem that the postal department ought to show a surplus this year if it ever will. The Hartford Courant editor had evidently reached about the limit of his patience when he penned the following words: "Considering the endless amount of printed slush that comes into this office every mail, it would be a natural inference that, if paper isn't scarce now, it's bound to be scarce soon. Thousands of tons must be wasted every day." There's one consolation, however. The price of waste paper for old junk is correspondingly high. It looks as if it might be an appreciable addition to the income of many a small publisher this year, and every little helps.

Use "Gels-It," Lift Corn Right Off

Shrivels, Loosens—and It's Gone!
"Just like taking the lid off—that's how easy you can lift a corn off your toe after it has been treated with the wonderful discovery, 'Gels-It.' Hunt the wide world over and you'll find nothing so magic, simple and easy as 'Gels-It.' You folks who

have wrapped your toes in bandages to look like bundles, who have used salves that turned your toes raw and sore, and used plasters that would shift from their place and never 'get' the corn, and who have dug and picked at your corns with knives and scissors and perhaps made them bleed—just quit these old and painful ways and try 'Gels-It' just once. You put 2 or 3 drops on, and it dries at once. There's nothing to stick. You can put your shoe and stocking right on again. The pain is all gone. Then the corn dies a painless, shriveling death, it loosens from your toe, and off it comes. 'Gels-It' is the biggest selling corn remedy in the world today. There's no other as good. Druggists everywhere, 25c a bottle, or sent on receipt of price by E. Lawrence & Co., Chicago, Ill.

Sold in Norway and recommended as the world's best corn remedy by F. P. Stone, Frank Kimball and the A. L. Clark Drug Co.

State of Maine PUBLIC NOTICES

In conformity with the provisions of Chapter 33 of the Revised Statutes of Maine, deeming it for the best interest of the State, the Commissioners of Inland Fisheries and Game, after due notice to all persons interested, and public hearing in the locality to be affected and deeming it necessary and proper for the protection and preservation of the fish of the State, hereby adopt the following Rules and Regulations relating to the times and places in which and the circumstances under which inland fish may be taken in the tributaries to Bryant's Pond and in Brook Kedar and its tributaries, the Kingman and its tributaries, in the towns of Woodstock, Greenwood and Waterville in said Oxford County.

RULES AND REGULATIONS
For a period of one year from May 12th, A. D. 1917, it shall be unlawful for any person to fish, take, catch or kill any kind of fish at any time in any tributaries to Bryant's Pond, in the town of Woodstock, and Greenwood, in the County of Oxford; or in Brook Kedar or in its tributaries, the Kingman and Plummer brooks, situated in Waterville, County of Oxford, except smelts and suckers.

During the same period it shall be unlawful for any person to have in possession any kind of fish taken in violation of any provision of these regulations.

Dated this 18th day of April, A. D. 1917.
HARRY B. AUSTIN,
LEON G. BROWN,
FOREST H. COLBY,
Commissioners of Inland Fisheries and Game, Chapter 33 of the Revised Statutes of Maine.

Whoever hunts, takes, catches, kills or destroys any inland fish in any manner or at any time, in violation of any of the rules and regulations of the Commissioners of Inland Fisheries and Game, made and promulgated in conformity with the provisions of this chapter, shall be punished in the same manner and to the same extent as is provided by law for the illegal taking, catching, killing or destroying of any inland fish.

Whoever wilfully mutilates, defaces or destroys any notice, rule or regulation of the Commissioners of Inland Fisheries and Game posted in conformity with the provisions of this chapter, shall be punished by a fine not exceeding fifty dollars.

PROBATE NOTICES

ENJOY A GOOD CUP OF COFFEE

That's what you will have if it is prepared in one of these Pure Aluminum Coffee Percolators

Really good coffee must be made in a percolator. The percolator steams the coffee, in such a way that all the rich aromatic juice is extracted, leaving the bitter part in the grounds. You never made coffee so quickly and with such little fuss as you can with this percolator. There is nothing to get out of order. It is made of heavy aluminum and is strong and durable. The percolating device inside is the latest model. It may be taken out instantly, for cleaning, and as quickly set in the pot again. You will have good coffee the rest of your life if you buy this percolator.

EXPERIENCE

The Series 18 Studebaker 4 and 6 are manufactured complete in the factories of Studebaker, a company whose great name for high quality and reliability has been developed through sixty-four years of successful business experience. Through its broad experience in manufacturing, through the elimination of parts makers' profits and through enormous quantity production of fine cars, Studebaker has been able to embody in its Series 18 cars all the essentials of quality that you would find in cars costing from \$2,000 to \$3,000.

Through concentrating on one basic design, Studebaker engineers have been able to constantly improve Studebaker Cars. They have observed the performances of over 250,000 Studebaker Cars in the hands of owners, and through this experience of actual service, the Studebaker Car has been refined, improved, perfected, until the Studebaker Series 18 is today one of the best cars in the world, regardless of price.

LOVELL

Cranberry Corners, a comedy drama in four acts, will be presented the last of May for the benefit of the Library.

E. F. McAllister, patrolman, commenced work on the road leading from Fryburg line to Stoneham line, Monday.

The friends of Mrs. Wm. H. Hutchins were pained to hear of her death Thursday, May 10. Funeral Saturday, May 12th, at the home at No. 4. Sabattas Rehearsal Lodge attended and conducted the service at the grave.

P. L. Charles has shingled his house and also bought an auto.

W. I. Storer has moved his shop room the Swett lot onto the W. C. Bassett lot above the postoffice.

Lloyd Poore and W. A. Merrill have bought new cars this spring.

The members of Kezar Valley lodge and Sabattas Rehearsal Lodge, I. O. O. F., attend church at Lovell Village, Sunday, May 13, at 2 o'clock. Address by Rev. Hoyt of Hiram.

The farmers will plant quite a bit more this year than last. Yellow corn, potatoes and beans seem to be the main crops. Every man should at least plant a good large garden. Even then we shall see the hardest times for the next two or three years that we have ever seen. Plant and after you plant, hoe. It does not pay to raise weeds, they make poor eating.

KEZAR FALLS.

"The Ministry of Silence" was the subject of Rev. Cymbrid Hughes' discourse Sunday morning, which was an able expounding of the command "Be still and know that I am God." The anthem was also a line, the title being identical with the words of the text. Next Sunday is Mothers' Day and the fragrant ink should not be forgotten. Pink for those whose mothers still remain with them, and white in tender remembrance of those who have gone to the "better land."

Susie Dow of Saco has been the guest of Bessie Lord the past week.

Will Garner and wife, also Dr. and Mrs. Gaston spent a few days in Boston, last week.

The Club Social, meeting the L. M. R. C. and invited friends, met in Norway's Hall last Saturday evening. The decorations were very pretty, the center of the table being occupied by a May pole with streamers of pink and white ribbon, and buttonholes of pink and white May flowers blossomed beside each plate. There was plenty of good things to eat, as the club is famous for its hospitality and entertainments and a delightful evening was enjoyed by all present.

EAST OTISFIELD

The Kemp Brothers expect to finish sawing their logs at the mill this week. Ellsworth Davis of Oxford is working for Harry Stone.

Mrs. George T. Elliott and sister, Mrs. Lusselle of New York, arrived Saturday at her summer cottage on the shore of Lake Thompson.

Mrs. George Bean, since the death of her husband, has moved to Auburn.

Edwin Barton of Casco visited his sister-in-law and husband, Mr. and Mrs. Peter Wood, a few days the past week.

Moses Spiller of Norway is visiting relatives and friends in this place.

Peter Wood has taken a job to clear up three acres of land at the cape for C. T. Elliott.

Frank Frost was in Norway Monday looking for a horse.

Mrs. Anna Kemp has been very sick the past week. Mrs. N. F. Lamb is caring for her.

It is so cold and backward Spring that farmers have not done much farming yet.

George H. Dyer went to N. H. recently to see his brother.

Mr. and Mrs. A. W. Lowe of Portland were at their summer home on Scribner Hill last Saturday.

Carl Lamb, who is working in Kittery, was the guest of his parents, Mr. and Mrs. Edwin Lamb, Saturday and Sunday.

OXFORD

Mrs. George F. Walker of Portland visited her sister, Mrs. G. H. Jones, the past week.

Mrs. Farnham had a flock of thirteen chickens. Last Friday when they went to feed them, they found eight of them dead. They were in a row just so far apart. The chickens were not mutilated at all, and she has not made up her mind what animal did the job. (Maybe a weasel.)

Charlotte Walker of Portland came Saturday to spend a week with her aunt.

May Day instead of hanging May baskets, gave us a nice snow storm. An auto party from Bryant's Pond that was here Tuesday to Convention, found that fourteen inches of snow had fallen when they got home.

Rev. A. R. Williams organized a Sabbath School at East Oxford last fall. Mrs. W. L. Caldwell superintendent. Sunday morning he went over there and gave them a short talk. Although it was stormy, he had a very good presence.

and Rev. D. B. Holt supplied the pulpit in his absence.

Memorial services this year will be held in the Congregational church May 27. Sermon by Rev. Malcom McKay, May 30, A. M. Decorating the graves held by Mechanic Falls Band. Dinner in M. E. Vestry. Address by Prof. Frank E. Hanscom of Gould's Academy, Bethel.

Mrs. Florence Hale Stote, agent for rural schools, visited Oxford Schools last Monday and spoke in the evening. Her address was both helpful and inspiring.

Cyrus T. Wardwell has sold his house to Henry Hamlin. Mr. Wardwell and wife are living at Poland Corner with her sister, Mrs. John Harper.

Elmer McAllister will move to Welchville into the Charles Jordan's house. Charles Jordan is at work in East Oxford for George Wilder.

ALBANY

Valley Road.

Myrtle Bartlett of Locke's Mills visited her sister, Mrs. Chas. Conner, Saturday and Sunday.

Ruth Barker was home from school, the week-end.

Ernest Cross and family of Bethel visited Arthur Cross, Sunday.

The dance at the Town house was well attended Saturday night. There will be another dance, May 19.

There was a crowd from here went to Greenwood last week smelting, and all had good luck.

Eugene Chayer is going to work on the state road at Locke's Mills.

W. G. Holt of East Bethel, bought a new and sulky plow of George Conner, last week.

Mr. and Mrs. Loren Lord of South Paris visited their sister, Estella Bean, Sunday and Monday.

SOUTH PARIS

Paris Shoe Co. Getting Located

The first shoes will be cut next week in the factory which was formerly the Grange hall building, opposite J. A. Kenney's mill, South Paris.

Extensive interior alterations have been made with the result that the Paris Shoe Co. will have one of the neatest and efficient factories in the state. A boiler and engine room has been added and a heating plant and flush closets on both floors installed. The wing once used as store house and horse sheds has been re-modelled into neat rooms where soles will be fitted and the finished product easily packed and shipped.

B. E. Morrison, manager and superintendent, who formerly served the Norway Shoe Co. in the same capacity, is responsible for this transformation and is a fine worker at the shoemaking game. It is his factory efficiency system that is being worked out while installing machinery, and will be carried forward into the manufacturing details.

As arranged, the cutting and stitching will be done on the second floor, the uppers then drop to the making room below, then onward into the wing for shipment.

Electric motors in summer and a 12 H. P. Steam engine in winter will furnish the necessary power. Six hundred or more pairs of misses' and children's school shoes will be handled every day by a working force numbering from 50 to 75 people. A staple article placed with reliable jobbers should guarantee steady work, giving the town a clean, smart industry.

The company was organized April 6 with \$10,000 paid up, all local capital. Hor. James S. Wright is president; Albert D. Park, vice president; Hon. Alton C. Wheeler, clerk; Manager B. E. Morrison; William O. Frothingham, treasurer. Directors: W. O. Frothingham, B. E. Morrison, D. M. Stewart, Mr. D. A. C. Wheeler, George F. Eastman, Fred N. Wright, Leon A. Brooks.

Young Man's Accidental Death

W. Earl Kimball, formerly of this town and two gentlemen friends were returning in an auto to Attleboro from a theatre in Boston and collided with an electric car. The head lights were so dazzling the boys could not tell which way to turn and all three were instantly killed. Mr. Kimball's skull being very badly crushed. Mr. Kimball was the only child of Mr. and Mrs. Charles Kimball, and born in Bethel. He was 26 years of age. At the time of his birth his parents were living at East Bethel, but they have lived on a farm in Paris for several years. He was a graduate of Paris High school in 1910, University of Maine in 1914, and studied law in the office of Alton C. Wheeler from the summer of 1915 to the summer of 1916. At the time of his death he was employed in Attleboro, Mass., as city engineer.

He was a member of the Phi Kappa Sigma college fraternity, and of Paris Lodge of Masons and Paris Grange, P. J. H. A young man whom everybody liked, and who made friends, and his bereaved parents have the heartfelt sympathy of every one.

To the Men And Young Men Of Norway

Friends:

It has been my pleasure to be associated with the F. H. Noyes Co. for the past sixteen years.

It is inspiring to know the confidence, support and encouragement that we have had from our fellow citizens.

It is inspiring to know that this community is so appreciative of the values, service and unqualified guarantee offered by my former associates.

I take this opportunity to assure the people of this community that the same spirit of cordiality, of courtesy, of helpfulness, prevails and that both Mr. Noyes and Mr. Pike are deserving of your continual confidence.

Yours very truly,

G. W. DEVINE.

er Friday evening. It was voted to discontinue regular meetings for the summer, and to go on an automobile theater trip to Lewiston Friday evening, May 18. George L. OPPORTUNITY

The Player Piano, so we are told, is the instrument which "put the tune in opportunity"! At all events, it has opened the door to enjoyment to hundreds and thousands who loved music but were denied the privilege of playing. May has been called "Opportunity's Own Month" for in it we may be happy, we may be contented, we may own a Player Piano—if we only will. Opportunity has again brought the piano into popular favor, because it is now possible, with the Player Piano, to really have music at any time you feel like it. All the family are pianists with the Player Piano in the home!

Come in today and see how great an opportunity is offered you.

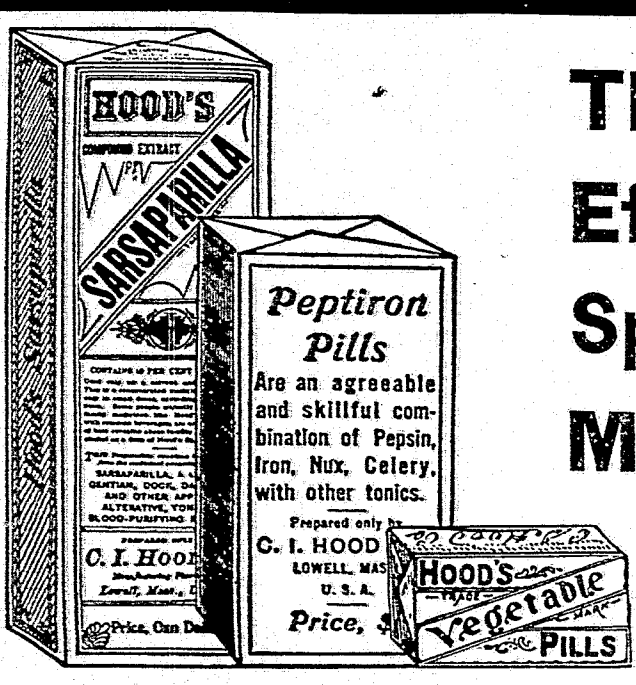

PIANOS, PLAYER PIANOS AND ORGANS.

This Spring

What You Get for What You Pay.

In the clothing field, as in every other, there are certain prices at which one's money brings the greatest possible return.

To pay less is unwise—you sacrifice quality in some form or other. But sacrifice you do—whether it be in appearance, fit, quality or comfort, lowness of price has cost you desirable quality.

To pay more is foolish—for beyond the true "value price" lies extravagance. What, then, is the value price, who determines it and how? Answer these queries and you have answered the question of "what suit to buy."

Now value is simply a matter of what you get for what you pay—it is determined by the ratio of quality to price. The true "value price" is that at which you get the most for your money, in those qualities that are essential to your permanent clothes satisfaction.

Clothes from the House of KUPPENHEIMER are the kind with perfect fit, style and fabrics. And above all, Guaranteed Satisfaction. Come in and look them over.

FRYEBURG

Food Production Increase
Put Fryeburg near the top in the list of Maine towns which will greatly increase their food production this year.

Not only will the home gardens show a gain of about 100 per cent in area but there will be a tremendous boost in acreage planted by the larger growers of staples, as the following comparative figures will show:

Yellow corn, 96%, acres in 1916, 199 acres in 1917; sweet corn, 424½% acres in 1916, 466½% acres in 1917; potatoes, 89% acres in 1916, 134% acres in 1917; beans, 36 acres in 1916, 81 acres in 1917; oats, 287% acres in 1916, 310% acres in 1917; buckwheat, one acre in 1916, three acres in 1917; wheat, none in 1916, one-half acre in 1917.

The gains in acres over the crops of 1916 are as follows: Yellow corn, 142½ acres; sweet corn, 42 acres; potatoes, 45 acres; beans, 45 acres; oats, 72½ acres; buckwheat, two acres; wheat, one-half acre.

Hon. A. A. Perry and Mrs. Perry, who have been spending the winter at Winter Park, Fla., arrived on Wednesday and opened their summer residence. Basket ball letters have been awarded to the following academy students: Paul Marston, Raymond Richardson, Fred Walker, Hersey Webb, Ernest Philbrook, Randolph Emerson.

Milton Morrill of New York is the guest of Dr. A. J. Lougee.

The annual meeting of the Fryeburg Village Corporation was held at their hall on Portland street on Saturday evening, May 5. There was a large attendance and the business session was of the business, which was brought before the meeting. The total amount of the appropriations was \$1,333. The following officers were elected for the ensuing year:

Officers—Hugh W. Hastings, Moderator; George O. Warren, Treasurer; Alvin D. Merrill, Collector of taxes; P. Woodside, Assessors of taxes; P. Woodside, Charles P. Gray and Benjamin T. Newman, Assessors of taxes; Charles S. Mason, Noah MacDonald and Elmer Brackett.

Elizabeth Ordway of Winchester, Mass., and Mrs. Henry Littlefield of Portland are among the guests who have returned to Fryeburg for a longer sojourn at Yon.

Mrs. James W. Eastman, who is cranking her automobile in front of the post office on Friday afternoon, May 4, had the misfortune to break both bones of her right arm. It was a bad break, but although the injury was painful, she is getting along as well as could be expected.

The annual meeting of the Sunday School of the Church of the New Jerusalem was held in the place of the regular session of the Sunday School on Sunday noon, May 6. Reports of the various officers were read and the following officers were elected for the coming year: Superintendent, B. T. Newman; assistant superintendent, Rev. B. N. Stone; secretary, Geraldine Mason; treasurer and librarian, Annie Cary Bradley.

The annual meeting of the Church of the New Jerusalem was held on Wednesday evening, May 24, in the lecture room of the New Church Temple. Rev. B. N. Stone after the reports, read his resignation as pastor of the church, and it was accepted with much regret. Mr. Stone was the founder of the church and has been the only pastor for the past 40 years. Previous to this he preached three years in the Congregational church at Fryeburg and before coming to Maine he preached four years in the Congregational Church at Loudon, N. H., making in all his term of service as a minister of the Gospel, 47 years, a long and honorable record. He gave his resignation after the reports, and he desired time to do, the infirmities of age and the need of a change for the church. Rev. and Mrs. Stone have their home in Fryeburg. The resignation will take effect the first of the coming month of June. Arrangements are being made to supply the pulpit at once.

Milton D. Morrill of New York City is visiting Fryeburg, where he is the guest of his mother and sister, Mrs. J. E. Morrill and Mrs. A. J. Lougee.

It is reported on the authority of William Gordon, that it is over 30 years since snow fell in Fryeburg on May 2nd. About three inches of snow fell on that date this year. The season is very cold and backward in the Saco Valley.

Arthur S. Ward of Boston sailed for France on Friday, May 4. He goes out as a member of a Harvard Unit to assist in the care of the wounded soldiers. Mr. Ward was a former resident of Fryeburg, he is the third son of the late Stephen E. Ward and Mrs. Mary E. Ward. Since the death of her husband Mrs. Ward has resided in Massachusetts with her daughter, Mrs. Marion W. McLardy.

The members of Mrs. S. T. Achenbach's class of boys in the Congregational church are preparing a plot of ground which they will plant and care for during the coming season.

Frederick Walker of Boston has been among the recent guests of his sister, Mrs. Tobias L. Eastman.

At the annual meeting of the village corporation it was voted to buy uniforms for the firemen connected with the local department. It was also announced that the Fryeburg Electric Light Co. will change their lines, installing higher power lights at a slight increase in the cost per lamp.

SAVE THE POTATO EYES
The movement to plant the eyes peeled on the potatoes used for food, which was described in these columns recently, is spreading rapidly. Agricultural experts in a number of states are recommending resort to the practice, which also is the endorsement of authorities of the National Department of Agriculture.

From Chicago has come announcement of efforts being launched in Illinois to conserve potato seed in this way. A gentleman of Industry, Pr., writes that he has tried the plan with success, and he draws attention to what practically every one must have noticed—the frequency with which potatoes are seen growing from peelings thrown upon dumps.

This means that practically every household, with virtually no reduction of its supply of potatoes for food, may go into the raising of tubers. To be sure, the more of the potato that is left to the eye, the more the plant has to feed on—but if the eyes are cut out in the shape of small cones they will be all right. Bear in mind, however, that this is not an attempt to instruct experienced potato growers, who will know how to make the most of their costly seed tubers, but to help persons in the city who say they would plant some potatoes in their back yards if the seed were not so costly. As they grow, they will plant otherwise, they certainly would have nothing to lose and everything to gain by utilizing, as here described, the eyes of the potatoes used for food.

How Every American Man Or Woman Can Help
President Wilson this week issued an address to all the American people. The supreme test of the Nation has come, he said, "we must all speak and serve together."

Putting this address on a war footing and raising a great Army, the President declared, are the simplest parts of the war.

Here are the principal points of the address:

- 1—America must furnish food and all other war supplies, not only for herself, but for all the nations at war with Germany.
- 2—We must supply ships to carry all kinds of materials across the ocean, defeating submarines.
- 3—People who devote "their energy to these things will be serving the country and conducting the fight for peace and freedom as effectively as the men in the trenches. The industrial forces of the country will be a great international service army—the efficient saviors of free men everywhere."
- 4—"Upon the farmers of this country in large measure rests the fate of the war."
- 5—"The country expects middlemen and merchants to forego unusual profits."
- 6—"This is the time for America to correct her unparadise fault of waste-luxury and extravagance."

Scientific Pig Raising by Expansion
Prof. Shorty Cook is raising a pig by the "expansion system," similar to the sectional box case idea. Just now the pig is a little five dollar one, consequently his presence is not felt. One unit represents the pen, dimensions 2.1x4 with 3 ft. posts. Inside is a downy straw tick that should induce sleep and invite rapid growth. A yard 8x3 is given as a play ground and delightful shade from an apple tree will be appreciated later when the pig is no longer and out grown his cozy bed room. Even a food repository purchased from a local grocery store labeled "White Flakes" for Shortening and Frying" has been added to the culinary department. If the little chap is superstitious, he will lick up at that pail and go on a hunger strike for a name of his own good business. Here is where Shorty has put one over on most of us superficial thinkers. He will enlarge as the pig develops, adding unit to unit until the orchard will be given over to the lone porker. We can't state which way the thing (not the pig) will take, expand, whether sideways or upwards. A second story is not improbable, science takes queer freaks.

Mrs. George A. Wilkins of South Berwick, N. H., has been spending a week with her sister, Anna M. Stone.

HARKEN BACK ON THE PAST

Thirty-two Years Ago This Week
Benjamin C. Briggs of Paris fell or was thrown onto the saw in S. M. King's mill and instantly killed, aged 59.

Twenty-five Years Ago This Week
Annie M. Richardson got first prize in the Sophomore Prize Declamations at Colby College, subject "Zingarella." Miss Richardson now lives in Houlton, the wife of Hon. Charles P. Barnes. Dr. C. L. Pike, who has been in the practice of his profession here for some over ten years, has concluded to move to Saco to locate there. He is to sell his residence on Main street.

Edith Steavis has resigned her position as assistant teacher in the High School. We understand that M. H. Small has been reengaged as principal another year with Mattie Tracy as assistant.

Sanford Annis, a boy about sixteen years old, son of Wm. Annis, got tired of staying at home and took a notion to strike out for himself. He had been absent two weeks and State Detective A. P. Bassett found him in Lewiston and brought him home to his folks.

At the town meeting it was voted to abate the taxes on the proposed mill for ten years provided the mill is built within a period of one year. South Paris—Tuesday evening, while Miss Dr. Hammond and Miss Driggs were driving down High street, their horse became frightened at a bicycle and ran away, carrying the wagon and throwing the occupants out with great violence. The horse cleared himself from the wagon and ran down Main street, fortunately doing no other damage and was stopped by Willie Kenner. The driver, Ethel Kenner, is moving from Bethel village to Norman Sanborn's farm on the Flat road.

It is reported that Harry King has sold his farm known as the G. P. Bean farm, to a party from Maine, N. H. The people in this vicinity are getting ready to do more farming this year, but it is very cold here as yet—heavy frosts nearly every night.

Elbert Briggs is stopping with his father, E. R. Briggs.

Twenty-four Years Ago This Week
C. L. Hathway, esp., will accompany Gov. Cleaves, staff and party, to Chicago to attend the World's Fair. He will leave with Col. Whitmarsh on the Chicago.

E. E. Millett is putting in his shoe making machinery over the G. W. Hobbs store. Power is to be furnished by a water motor.

Will Austin, the machinist, is in great demand, having more work than he can easily do. He is wanted in three or more places at once. He has been making some extensions on shafting at the Holmes mill.

Kimball of the firm of Kimball & Williamson, has sold out his interest in the drug business to Mrs. Anna Noyes. "Dimple," a valuable mare belonging to H. L. Horne, died recently.

W. W. Gerry was the first person to get a dividend from the Norway Shoe Shop Co. last Wednesday.

The officers of the Oxford County board of underwriters for the ensuing year are: Seth W. Fife, Fryeburg, president; A. S. Hathaway, Canton, vice president; Fredland Howe, Norway, secretary; William Wheeler, Saco, treasurer. The board adopted the rules and rates of the New England Insurance Exchange.

The W. C. Leavitt store is being repaired back to West Paris to stay with her father and mother.

Roland Carson has returned to his home at Bird Hill, Bethel. Mrs. Chas. Tracy is on the sick list and had to call in a doctor.

Will Child and son, Harold of Dixfield were calling on friends in Dixfield the 6th.

Roscoe Tracy's work horse dropped dead while working in the field one day last week.

Mrs. Herbert Andrews is working at Chas. Tracy's.

Morris Tracy is working for Ernest Sturtevant.

Frank Braley has been away for a few days. He went part of the way with his aunt, Gustie Hall, who lives in New Hampshire.

Ernest Bennett went with a four horse team to Colebrook the first of the week for a load of seed oats from Kendall & Whitney and other merchants.

Mrs. J. F. Hart is a guest of her aunt, Mrs. Lewis Leavitt for a few days.

A physician of Colebrook was called Friday to see the little Hoyt girl. She is now on her way to the hospital.

News was received here of the death of Fred Tyler, a former and much esteemed resident of this place and has many friends here.

Lewis Olson took a party to Errol, Friday night in his auto.

John Olson is a great sufferer from the effect of a kick from a horse, received last winter. A physician from Berlin was up to see him the past week.

Candidates for Naval School Wanted
Congressman White will make nominations for the admission of two non-commissioned men to the Naval Academy at Annapolis during the next few weeks. The candidates nominated by Mr. White will take final examinations for admission to the Academy on June 27th. The nominees and alternates will be determined by the rank attained in a competitive examination.

This examination is open to all young men between the ages of sixteen and twenty, residing in the Second Congressional District, which includes Androscoggin, Franklin, Knox, Lincoln, Oxford and Sagadahoc Counties and will be given in Lewiston during the last week in May.

Congressman White will be glad to furnish any young man, eligible for this appointment, with additional information regarding this competitive examination and the general requirements necessary for eligibility of appointment to the Naval Academy. A letter, to reach him, should be addressed to him at the House of Representatives, Washington.

Phila., Pa.—“One year ago I suffered with pains in my side and back until I nearly went crazy. I went to different doctors and they all said I had female trouble and would not get any relief until I would be operated on. I had suffered for four years before this time, but I kept getting worse the more I took. Every month since I had a girl I had suffered with my sides at periods and was very nervous. I saw your advertisement in a newspaper and the picture of a woman who had been saved from this trouble and this picture was in my mind. The doctor had said I had to have two more operations to make me so I sent my husband to get me once for a bottle of Lydia's Vegetable Compound, and I soon noticed a change and finished the third bottle I had never felt better. \$1460 F. o. b. Racine
7-passenger—48 Horsepower
127-inch Wheelbase

Our New \$1150 Six

Thousands who wanted Mitchells wanted a smaller car. So this year we show Mitchell Junior
Not too small. The wheelbase is 120 inches—the motor is 40-horse power. That's way beyond the usual in a car for five.
You have never seen a fine car with such amazing value.

Unique Things

The Mitchell is famous for its hundreds of extra values.
**31 Unique Features—
24 Per Cent. Added Luxury—
100 Per Cent. Over-Strength.**

These are all paid for by factory savings, due to John W. Bate. He has spent millions to attain them. This whole plant has been built and equipped by him to build this one type economically.

The result is a great car, built at far lower cost than anyone else could build it. And that saving goes into these extras.

See the Result

See the 31 features which nearly all cars omit. See this year's added luxury, paid for by savings in our new body plant. We spend 24 per cent. more on beauty than last year.

But the greatest Mitchell extra is this double strength in every vital part. Our margins of safety—once 50 per cent.—have been doubled in three years.

Over 440 parts are built of toughened steel. All safety parts are vastly oversize. All parts which get a major strain are built of Chrome-Vanadium.

The object is a lifetime car, and tests show that we have it. Cars still in good condition have been run over 200,000 miles.

Cost \$4,000,000

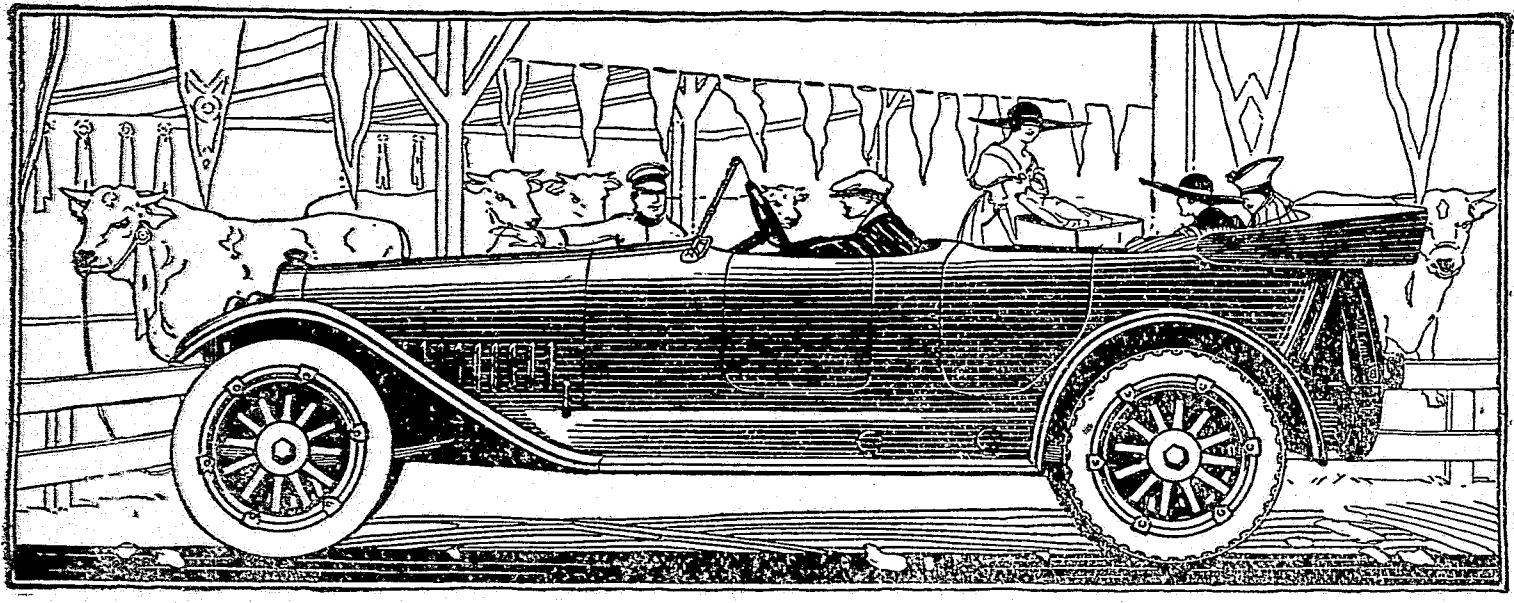

The Mitchell extras on this year's output will cost us \$4,000,000. They cost you nothing, because our factory methods save them.

Compare the Mitchell with cars without these extras. We will abide by your judgment on which car you want.

Your wagons and implements should last longer

Every farmer knows his wagons and machinery will last longer if kept out of the weather. It is equally important to have them protected from sun and rain when in use.

DEVORE
FARM WAGON PAINT

is the one protection that we can recommend. We guarantee it to give a durable and lasting finish. Ordinarily a gallon of it will repaint all the wagons and machinery on the average farm.

In addition to saving many times its cost every year, this paint will keep things looking spic-and-span.

Devore Farm Wagon Paint is made in green, red, yellow, blue and black. Which color do you prefer?

SPRAGUE'S JOURNAL OF MAINE HISTORY.
The last number of the fourth volume of Sprague's Journal of Maine History, published at Dover, Maine, has been received.
It is one of the most valuable and attractive issues of this important publication.
The two leading articles from the pen of the editor are biographical sketches each well-illustrated of Sir Hiram Maxim and Baron de Saint Castin.
In its also appears a letter from Holman Day, Maine's famous novelist, cordially endorsing the work of the Journal; a tribute to the memory of Mary Harris Curran, late of Bangor, by Charles A. Flagg, librarian of the Bangor Public Library; ancient documents, etc.

STONE'S WATER GLASS

For Preserving Eggs
30c in quart bottles.

DIRECTIONS—Use only perfectly fresh eggs. Stale eggs will not keep by any method of preservation. Clean out the vessel in which the eggs are to be packed (preferably a stone jar) by scalding with boiling water. Prepare the solution, using water that has first been boiled and then cooled to ordinary temperature.

To each 10 quarts of water add 1 quart of water glass. Pack the eggs into the jar and pour the liquid over them, covering the eggs completely. Do not wash the eggs before packing them, as this may injure their keeping qualities by removing a natural protective coating on the outside of the shells.

Keep the eggs packed in this manner in a cool, dark place, such as a dry cool cellar.

ESTIMATES OF WORK FREE.

LOCAL PICK UPS, ETC.

Set the clock ahead one hour and save daylight. Get to the shops earlier and have more time for gasoline burning and garden work. Good idea! Why not do it?

In the goodness of his heart Judge Wm. F. Jones permitted the boys to play ball in the Whitcomb field on Orchard street. The abundance and quality of profanity necessary to ball playing so shocked the good citizens as to raise the question of doubt about the moral and religious training of our schools. An investigation is threatened.

With war on our hands, and possible famine staring us in the face, every man in Norway, who is physically and mentally able, should be required to work. If a chronic loafer is found, and there are some, it is the duty of the committee, of which Col. A. J. Stearns is chairman, to take him in custody, put him in a field and compel him to aid in the production of vast quantity of food stuff that are required. Please see that this is done.

The Judiciary Committee of the Massachusetts Legislature refused to incorporate the New England Milk Producers' Association as business organization on the ground that it was too much of a bold faced trust or conspiracy. An effort is being made to get it through the legislature as a charitable organization and Boston's Broad Street Farmers are reported as "working shoulder to shoulder against the common enemy" which I suppose is the anti-trust laws of Massachusetts and the Federal Government.

I called on Porter C. Seavey one afternoon. The latchstring to his castle was out (by the way, it is a chain) and after vigorous yanking I was admitted. Porter was resting after a prolonged struggle with spade and rake. He was nursing his tick dolorous pain of which he has many for ten or more years.

It pulls one shoulder down and travels all over his anatomy. This is what Dr. Fitzgerald told him years ago when I gave him \$15.00 for an examination and treatment. Mr. Porter was then living up Songo Pond way near Bethel. He is in pretty good shape for a trappers' guide and Indian hunter of the Western Plain variety.

Porter used to live in a camp near York's not far from Hobbs' Pond and he owned a magnificent valuable frontage which I think he sold and, like many another well-to-do man, bought land in town and moved into the village to spend his declining days within the hearing of school and church bells to say nothing of the striking of the town clock.

His house is not big, say 12x14 feet and the shed is small, but it keeps the snow from off the stove-wood and is handy. Two chairs, a stove, bed and iron bar constitutes the most of his furniture. There is a let-down window and a stairway into the attic, where no doubt he keeps his Indian-ear-piercing rifle used on the Plains in younger days. I didn't see it, but have heard the story, so have others.

The rear end of the lot has been sold to Phil McAllister and on it is a shack around which are tin cans and other bric-a-brac showing it has been inhabited.

Porter is to plant all the land he owns. He feels the birds and says they are very tame when strangers are not present. He does his own cooking, mending and washing and enjoys absolute independence along these lines. Happy man!

I was told Charles G. Blake had bought the lot cornering on Pearl and Whitman streets. Some fresh looking stakes were sticking up and indicates something, the nature of which I'm ignorant. Maybe a building, but I don't think it.

Blake takes kindly to land and what he is to do with the old home place is unknown. Lew Millett has bought the barn and is to move it bodily onto the lot on Maple street. Possibly Mr. Blake is to take down all the building on his Cottage street purchase. I presume he does about as he wants to regardless of me.

Hi Libby was working in his shed and consequently I let him alone as a man of his age and disposition when working wants to pay undivided attention to what he is doing. I could not refrain from trying to open the shop door and peeking in, but it was locked. The land of local chimney straighteners were not in session.

Collateral in Charles A. Pridie's door yard indicating he is a farmer. A woman was seen washing a window, but Charles was absent. Chickens peep or white-eyed-rabbit coops with wire lattice work extends near the fence from Depot Square to Deering street. They are of last year's vintage. Whether the is guilty for the whole of it, I don't know.

A strewed round wood pile and a chimney on the outside of the building makes the place where Dr. George P. Jones once lived. It is now owned by Harry P. Jones, who has lived during the cold spell with his wife's folks, C. B. Adams, just below the Congregational Church on Main street. He has come back to Deering street and will soon have things in shape and his garden planted as he is very patriotic and some thrifty.

Al Hill, who talks bad English and good French is re-laying or re-building a brick chimney in one of the Upper Fiddieville residences. Of course I talked with him regardless of the price per hour he was getting. He was working for a rich corporation and I knew it.

The retired hardware king has a bunkum wire fence back of his barn. His garden is nicely furrowed and is being mellowed by action of wind and sun (when it shines) preparatory to receiving the seed. Jim didn't see me, hence my stop was short, but I took a glimpse of his land I sold him when I had the line back of the Old Adams Noyes place straightened. I paid Capt. Whitmarsh \$150.00 for the strip. This was before the Captain sold the Elm House. Dr. Harry Jones came in for a portion as well as Mr. Crooker. All of it will be cultivated this season. Some of the neighbors surmised I made a good bit of money in buying this land. Capt. Whitmarsh was the fellow who profited as he got just as much for the Elm House property when he disposed of it to "Chucky" Young some months later. Ellsworth Young of course didn't like it, but Sanborn, Crooker and Jones were pleased to extend their holdings.

Storm center of confusion and litter is in the rear of Norway's Palatial Government building formerly occupied by the Elm House. Here is where you get a likeness of war destruction as the wood-work of the old house is strewn over much valuable land. The rear view of the new block isn't in keeping with the

front, and is neither so handsome nor impressive. The New Small built barn with auto additions is in a state of up roarious turmoil, storing a big gasoline tank and a submarine chaser with litters everywhere and then some more.

Wm. C. Leavitt's building needs painting but paint is an extravagance any way and I'd not advise putting it on this season, when labor is scarce and labor is needed on the soil.

The cement brick addition in the rear of Longley & Butts' store put on in the hay day of Crooker's expansion, makes a good work shop and is near the barns. The latter are filled with hardware and easy of access. There are no further use for these stables. Autos have crowded out horses and garage stables and the latter are now used for store houses and Jim Crooker has a surplus. He has one nuisance and for public safety should be remedied—a 4-inch rise in his Main street sidewalk—no doubt he intends putting in cement on the same level with his neighbors.

Hugh Pendexter says I misquoted him last week and strained a bit at conclusions. He says he said "Work more, get bigger pay and spend money as in normal conditions is better than buttermilk economy." I guess he is right. I want to quote him correctly anyhow. Regarding the shoes, Ed. Thomas, the cobbler, she me they were not worth repairing and this rather bears out Hugh's allegation that I am overdoing the economy business in this paper. Even Frank Noyes, the clothier and philanthropist is of that opinion and he is probably right. I don't dare to tell me so. I beg Hugh's pardon if I misquoted him, and take this opportunity to set him right with the critical readers of your paper.

Since I have taken to writing my friends are shunning me. Miss Elsie Favor was in town a full week before she mustered courage to call and then she cautioned me not to say anything about it in the paper. Of course all sorts of promises were made only to be broken when the spirit of writing came.

Elsie left this office five years ago, when her brother Henry's wife died in Brockton, Mass., and left young children in the paper. Of course she stayed there the usual time—until her brother got a permanent housekeeper by marriage. Then she was called to Logansport, Ind., where Henry Tucker, an uncle, was in trouble and smoothed out things there and later with Aunt Alice she landed in Topeka, Kansas on a similar mission and remained some two years.

She is back in Norway now and I told her she might have any job in our office she might select. She is a hand compositor and wants to do that work, but the "iron monsters" in this office have cut her out, yet there is plenty of work for her in her chosen line in this wide world.

I have a rule and don't know much about it. It was given me by George Bennett, the sign painter. He couldn't read it, neither can I. Of course the inch part of it is understandable and I can make it do duty as a straight edge the same as he did, but I have a curiosity to know the real purpose for which the instrument was made.

In tracing down its history, am inclined to think it was used by old fashioned tailors as Henry Davis gave it to Bennett saying Walter Churchill gave it to him.

Walter's father, Joe Churchill, was a tailor but Earle Panam, who ought to know something of the tools in that line of business, pleads ignorance and refers me to Harry Lane and Allard & Moulton.

The thing is 20 inches long, 1-1/8 inches wide and scant 1-8 inch thick and made of box-wood and was "entered in Congress Jan. 1, 1897" and is known as the "Madison Patent."

What is it? The knowing ones please speak up! Where is George Brooks and Will Bicknell?

I met Mrs. Nate York in a store the other day. She is one of the smart women who live on the Waterford road. She has got a strong grandson who breaks her handles and saws but has worked up the wood pile this season if he isn't but 15 years old. Last year, the wood pile was sawed by gasoline equipment, but this season the boy did it and saved the expense.

Emogene Hunt, a granddaughter, has worked some of the family of Rev. R. J. Bruce and attended the Norway school. She is capable and willing to work. At present is teaching school on Plummer Hill, Waterford, and has 7 scholars and is struggling with five grades of education under one roof. She likes the work and her efforts are meeting with good success.

A brother of the above, Robert Hunt, is working for his board on the Seitz Farm, is attending Norway High School. I think there are other children in the Hunt family, who are grandchildren of Mrs. York, but I do not know. If so, no doubt they are doing something.

The mother of these children, Mrs. David Thurston (second marriage) has been the madron of the women of Norway Town Farm for the past three years and she too is a good worker and manager, so says ex-Selectman Holmes. They are worthy and useful people.

Morning Flag Raising Suggested

A Spanish flag raising suggests that the regulation morning flag raising be added to military training now in force at the Norway high school. All students in the building could get this instruction. When the session opens have every grade drill, march out as during a fire drill and "fall in" around the flag staff in company formation.

Color sergeant with a squad of four, all selected by appointment or scholarship, can bring out the flag and raise it properly with the school at attention singing the Star Spangled Banner or give the Flag Salute.

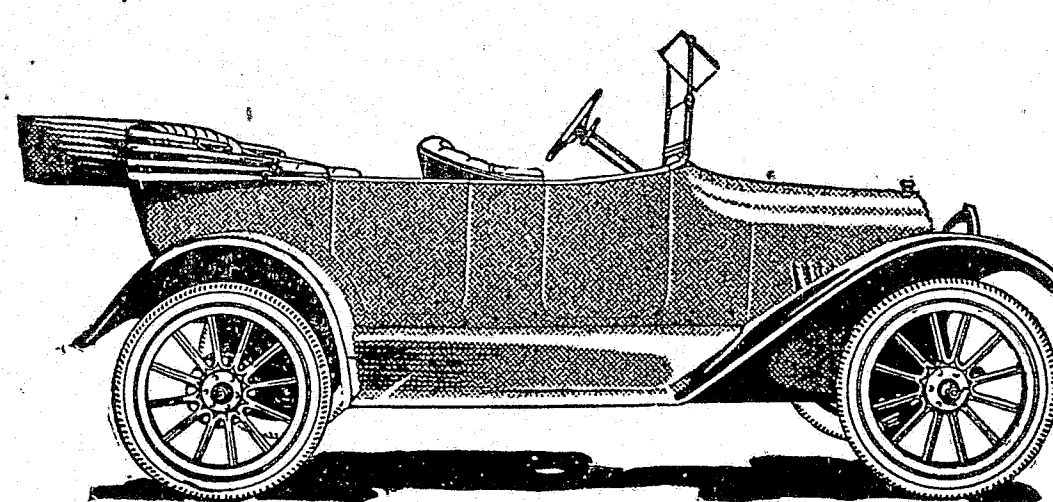

Unusual activity about home gardens has been noted this week. Village people seemingly realize the importance of raising food. Hard work now being done by the local Agricultural committee is bearing fruit not in words, but deeds.

Harry Rust Post No. 54 G. A. R. recently voted in forty associate members with every privilege but the ballot.

Leslie E. McIntire of Waterford, member of the State Public Safety committee had a war conference Friday with members of the local organization.

Sec. A. W. C. Blaquiere has offered his services to Supr. T. C. Merrill as drill master when it is impossible for Lieut. Pike to be present.

Dr. C. I. Fogg reports enjoying a sleigh ride May 2 while testing cattle in Bridgton. The deepest snow was near the Ayer farm, South Bridgton, which is the highest cultivated land in Cumberland Co., or about the same altitude as the mountains in Stoneham.

CHEVROLET

Truth

As its advertisement—so the car. An honest announcement goes with an honest car.

Truth is the eternal test.

You will never read a Chevrolet statement making any extravagant claim.

True, we have claimed certain qualities for our car—superior motor-power, easy riding comfort, low cost of upkeep—but we have always been prepared to support our statement with the proof.

We claim that the Chevrolet model—now as always—stands for the highest motor value in its price class.

Test our statement—see the Chevrolet car, ride in it.

You will find—as thousands of others have—that we have spoken the truth.

Making a Clean-Up

THE Bay State is pro-cleanliness. Yes, Sir! And his influence is felt all thru New England. He ministers to the worn and needy. Saves furniture from a useless life in the store-room. Keeps house, barn, boat, wagon—or anything else with an outdoor job—in the pink of condition. Nothing is too small for his attention. He has a special paint up his sleeve for every little thing.

Bay State Paints are free from everything harmful—full of everything that's helpful. They are made and mixed to withstand the wear-and-tear weather of New England. Why content yourself with scrubbing and rubbing? A can or two of "Bay State" will make any old thing new—quickly. Send us a photograph of your house—our art department will suggest a pleasing color scheme free.

Mark this: When you buy paint, see that the label reads "Bay State"—then you're sure of a good job, and a lasting one. The Bay State's book on paint is mighty interesting and instructive. Send for it.

See These Shingles
Before You Build

If you are planning to build or repair, you owe it to yourself to know more about the merits of American Twin Shingles. On all sloping roofs these shingles give a dollar's worth of value for every dollar spent.

AMERICAN TWIN SHINGLES

are made of tough felt, thoroughly waterproofed with everlasting asphalt; then coated with crushed slate. American Twin Shingles are made in beautiful red and green colors and will harmonize with any surroundings or architectural plan.

Come and see these shingles today. We have a wide assortment of building materials awaiting your inspection.

On account of the high cost and the difficulty in getting shipments, we have laid in a stock of the above shingles. They are not any more expensive than the white cedar shingles at present prices and in addition to this, they are **FIRE PROOF**. This is quite an item.

PREPAREDNESS

Whatever the outcome of the present conflict, it is certain that foodstuffs of all kinds will be in demand and will command a high price. Now is the time to make plans for a larger acreage of all field crops. It is also certain that farm help is to be scarce and very expensive. These things are therefore necessary and vital for the season of 1917.

GOOD FERTILIZERS

FRESH AND RELIABLE SEEDS

IMPROVED FARM MACHINERY

We have now in stock plenty of Bradley's and also Rogers & Hubbard's Fertilizers, of all the best brands, on which we can now make the most favorable prices. Better secure them at once. The materials of which they are composed are going higher every day.

High Grade Field and Garden Seeds are now in store and we are receiving them every day. Some seeds are a little higher than last year, but our Bulk Garden Seeds, Peas and Beans are the best values to be had. Those who buy early will get the best trades.

Everything in Agricultural Machinery we have now in stock at prices far below the present market. Sulky and Swivel Plows, Disk and Spring Tooth Harrows, Clark's Cutaway Harrows, Spreaders, Walking and Riding Cultivators, Weeders, Grain Drills, Garden and Hand Drills, Seeders and Hoes and many others. All the above articles that we now have in stock we can sell at prices much lower than we can now buy them.

The comfort and safety of our nation, for the next year, depend on the farmer and on the use that he makes of SEEDS, FERTILIZERS AND IMPLEMENTS.

HEBRON.

The Academy

The seniors were the hosts at a social dance held in the gymnasium, Friday evening. Its purpose was to raise money for the class toward the usual senior fund, most of which is donated to the school as a class gift at graduation. Music was furnished by Andrews' orchestra. Ice cream was served at intermission.

The committee of arrangements comprised Stanford Merrill, Augustus, George Lavorgna of Canton, Robert Allen of Amesbury, Mass., Kathryn Smith of Ogunquit and Marjorie Pollard of Masardis.

H. Alton Lewis, '11 visited the school over the week-end. Mr. Lewis was last year assistant in mathematics and track coach at the academy. He is now in the insurance business in Boston. Recently he enrolled in the Naval Reserve.

The local telephone exchange is to be moved from its present location in the store of the Hebron Trading Co. to the so-called Pratt House on the Buckfield road. The Hebron Home Telephone Co. recently purchased this property, are remodeling it and fitting it for double purpose of dwelling house and telephone exchange. The company is also improving its service by dividing several of the crowded lines.

Ralph Glover has been appointed road patrolman for the town. The road to Mechanic Falls is fast rounding into good traveling, but it is still impossible to get heavy teams or big cars through to Hebron by way of West Minot.

Many of the seniors went to Lewiston or to Portland, Saturday to have the class pictures taken.

Althea Warnock, assistant in mathematics, spent the week-end in Boston.

WHY CARRY CURRENCY?

It fosters extravagance; promotes indulgence; encourages prodigality, may be lost.

A check book is safer, more methodical, and tends toward thrift. Depositing your money in the Bank makes it safe from loss by fire or theft. Paying all bills by check introduces method in your business and enables you to keep tabs on your expenses, for each check you draw is returned to you by the Bank and bears the endorsement of the payee. These cancelled checks permit of checking your bills and thus stop waste, which results in thrift.

Practicing thrift ends your money troubles.

OXFORD COUNTY SUPREME COURT

May Term
 A ten passenger auto truck ran off the ferry at Rumford Center, Monday, and plunged into the Androscoggin River. The driver and three passengers escaped. A trunk containing valuable documents, without which the Supreme Court session could not be opened Tuesday, was in the machine in 15 feet of water. Notwithstanding the fact that the trunk of Ernest Record, clerk of courts of Oxford county, containing valuable court documents, reposed for half the night on the bed of the Androscoggin and May term of supreme judicial court opened Tuesday morning in the new municipal building in Rumford, without any delay. This is the first time that court has met in the new court room, and the splendid building was appreciated by the large numbers of lawyers present.

The forenoon was spent in reading the docket and assigning the cases, and the trial of cases will begin in the afternoon, Justice Hall of Saco presiding.

The Stanley steamer which went off the ferryboat at Rumford Center was hauled out of the river about midnight with a cable and sixteen men and will suffer but little damage. But for the quick arrival of Everett Bartlett with his row boat at the scene of the accident, it is doubtful of the lives of Edith Chase and the driver, Garfield Redman, could have been saved. Miss Chase is reported to have lost her pocketbook, containing a diamond ring. The trunk and a suitcase and passengers were recovered with the machine, and it is claimed that the ink on the stickers on the outside of the trunk had not run. A driver assisted in the rescue of the articles and the automobile.

The documents were found water soaked and many badly damaged requiring new copies. Albert D. Park, who was attending Probate Court assisted Mr. Record in the drying process, using all available space. The new Rumford municipal building for that purpose.

Two suit cases are reported missing. Tuesday afternoon the jury was excused at an early hour and the afternoon was given over to hearing divorce cases, among those heard being the cases of Drabble & Marchand vs. Ernest Marchand, Hutchins, Beliveau; Julia C. Dermody vs. James A. Dermody, Blanchard, Hutchins; Burke vs. Burke and Merchant vs. Merchant, but no decrees were announced.

Charles Campbell, Mexico, paid a fine of \$100 and costs, or \$110, on a charge of common seller, Joseph Mercier, Mexico, paid a fine and costs amounting to \$125 on a charge of keeping and depositing, and also pleaded guilty to a second charge of keeping and depositing and the case was continued for sentence.

John Wikont paid a fine of \$100 on nuisance case.

"YES, I'M FEELING FINE NOW," SAID THIS BANGOR LADY

"It Gives Me Real Pleasure to Recommend Tanlac for What It Has Done," She Tells.

"Because of what it has done for me, it gives me real pleasure to recommend this new Tanlac," said Mrs. C. L. McLaughlin, of 347 Main street, Bangor.

"I feel sure that it would be just as helpful to others for there are so many people who suffer just like I did," Mrs. McLaughlin continued.

"I had stomach trouble and indigestion," this Bangor woman explained. "Many times after meals I would suffer. The indigestion caused me to get into a run down condition. Instead of digesting, my food would lie in my stomach and sometimes caused nausea. I had gas and bloating and a dull, languid feeling and often a bad taste in my mouth. My sleep was not refreshing because of this condition."

"Since taking this Tanlac that was so highly recommended and of which I had read and heard so much, I am feeling fine. I now have good appetite and have no trouble digesting my food. The result is I sleep better and am stronger."

"I feel generally built up by this tonic. Many women, and men, too, I believe, would feel a great deal better if they would try this Tanlac."

Tanlac now is being specially introduced in Norway at F. P. Stone's drug store. There is a Tanlac agent in every Maine town. Nearby Tanlac agents are South Paris, C. H. Howard; Harrison, Eugene Tenney; Bridgton, P. E. Stevens; Waterville, L. R. Rounds; East Waterford, R. E. Pinkham; West Paris, S. T. White.
